  - Developed reusable components that help the team to finish Backup Center project **earlier** than planned.
  - Fully **remote work**, completing assigned tasks on **time**, **meeting** customer requirements and working under pressure.
  - **Daily work** progress reports following the workflow set by the team using **Beanstalk** source version control software and **Jira** software development Tool.

  Technologies used

  `React JS` `Typescript` `Bootstrap 4` `Ant Design`

  `Spring Boot (with JHipster)` `PostgreSQL`

- **Computer Science Professor**

  From 2019 | Universidad de Oriente

  - Teaches classes of Logic Math, Data Structures, Information Retrieval System, and Artificial Inteligence.
  - Stands as Director of the International Collegiate Programming Contest (**ICPC**) at the University.
  - Won the annual CITMA Award for Young Researchers.

- **Freelance Full-Stack Developer**

  From 2020 to 2021 | Freelance

  - Designed and developed websites for small business.
  - Guided digital marketing strategy for positioning the business on the web.
  - Developed frontend user interface.
  - Worked in a team of two members using agile methodologies (XP).
  - Conducted meetings with the client and designed application architecture.

  Technologies used

  `React` `Bootstrap 4` `API Platform` `Swagger` `MySQL`

- **C++ Developer**

  From 2017 to 2021 | Centro de Biofísica Médica

  - Contributed to designed and developed the medical imaging software **Imagis**.

SKILLS

- Html / Sss
- Sass
- JavaScript
- TypeScript
- React
- Spring Boot
- Flutter
- C / C++
- Java

- Support junior developer on C++ and helped improve their knowledge in the language.
- Worked in more than 10 features such as design, report management, transmission, visualization, and image segmentation.

Technologies used

C++   Java   VTK   ITK   DCMTK   Qt Framework   Lucene

Information Retrieval

CERTIFICATES

React Certificate

Dec 2020 | HackerRank

Provide knowledge and skills required to become a successful web and mobile application developer.

Problem Solving Certificate

Nov 2020 | HackerRank

Standardized assessment to help developers prove their coding skills.
